OPERATION CHRISTMAS CHILD

By Sue Kelley

Operation [Christmas Child](#) is celebrating their 25th year of delivering Shoeboxes to children around the world. Consider packing a shoebox and making a child's day a special one. It's easy. Here's how:

1. - You need: 1 average size shoebox for each child. Use either an empty cardboard or plastic shoebox, or Samaritan's Purse boxes from down in Pierce Hall.
2. - Decide on boy or girl, and tape **either** boy or girl label with choice of age checked off, on top of your box. Fill box with age appropriate gifts, including a wonderful "Huggie". Include paper, pencils, crayons, etc, if school age, and fun toys for all ages. The list of allowable items is on the display in Pierce Hall.
3. - November Birthday Bank will be dedicated to paying the \$9 for each shoebox. If you prefer to pay for your own box (or boxes), just include your check/cash in the envelope that comes with the boy/girl labels, and put it on top of everything inside your box.
4. - Do not tape your box closed. Please use large rubber bands to secure it.
5. - Please pray for the child (or children) that will receive your box(s)
6. - After your box is filled and labeled, you can bring it (them) to church. They will be delivered [Sunday](#) Nov.18th to their pick up point in Lebanon.

Any questions, please call Sue Kelley at 603-675-6254 or email: russell.e.kelley@gmail.com

Last year our church sent 23 shoeboxes out. Let's see if we can beat that this year!!

RUMMAGE SALE TALES

by Ruthie Stalker

We had a lovely, antique bedroom set for sale which came from the parsonage, consisting of a bureau with a big mirror, a smaller bureau, and a head/footboard. The bureaus were sold separately. The head/footboard was left with the “free stuff” under the tent. On **Sunday**, Dick Davidson drove over there in his truck and found a young couple who really loved the bed pieces, but they had a very small car and no way to transport it to Hartland, VT. Dick put it in his pick-up truck and followed them home (probably their “first house”). They were so grateful, they gave him (our church) \$40!

Another couple, who had a new baby, were thrilled to buy the washing machine from the parsonage for \$50.

A local woman who volunteers at a Senior Center took some **Christmas** items to decorate the center.

A waving doll was donated to our sale by a woman who told Doris she had bought it for her mother when she was in a nursing home. After the mother died the daughter put the doll in the front seat of her car in memory of her mother. Eventually she donated it to our rummage sale. Another woman came in and bought it to give to the nursing home where she does volunteer work. So the doll will now be making other nursing home patients happy.

We had several antiques to sell, so we arranged for Leon Rogers (who worked for Smith Auction Gallery for several years) to give us his opinions and price estimates for them. This was very helpful! One of the antiques was called a “Ross Table Wash Stand,” which Pastor Chris donated. Leon said it was quite rare and we ended up getting \$160 for it! Another item was a tapestry wall hanging which Leon valued at \$200. The last day of the sale, after the “half-price” time and after the “by donation” time, a man expressed interest in the tapestry. He is a dentist and is hoping to open another dental office in the Plainfield area. He said it would look great on a wall in his office. I told him how much it was worth, and he pointed out several “flaws” from wear and tear over the years. I said “I know we said everything left was free, but we’re a church and it would be most appreciated if you would pay us something for it.” Earlier I had given him all the car floor mats we had. So he said “you were nice enough to give me all the car mats, so here’s \$100.” How nice was that? I almost cried!

After the sale, Annette took a car full of chosen, unsold items to Listen.

Another piece of good news was that on **Monday** morning there was only one pickup truck-full of stuff left to go to the landfill. (On **Sunday**, Dick Davidson took one truck load of better unsold stuff to store in his barn, and he’ll try to sell it on Connect Cornish). Considering how much there was to begin with, that was quite an accomplishment! Thank you again to all those who donated items, helped with the sale, bought things from the sale, or supported us in any way.

EAT THE MIC

By Joy Hutchins

The science of speech is truly fascinating. Our voices create a variety of sound waves that travel through space. They reach someone’s ear where the impulses travel to the brain, get decoded, and are given meaning!

What does this have to do with a microphone and the PCBC sound system? Sometimes the sound

waves need to be amplified in order for them to reach their intended destination. The microphone picks up the sound waves generated by our voices and sends them to an amplifier. Here their intensity is increased, and they are sent to the speakers. The speakers then send the sound waves to prescribed locations both in the sanctuary and in Pierce Hall.

Our system was specifically designed for the dimensions and functions of our church – talking voices, singing, piano, hand-bells! Speakers are strategically placed to minimize dead spaces. While there is still much to learn about all that our system can do, there is one thing we can all do right now... EAT the traveling microphone when we make announcements.

In order to pick up ALL the sound waves generated by a speaker's voice without picking up ambient noise going on around the speaker, the microphone needs to be a thumb distance or less from the speaker's mouth. It looks (and often feels) like the speaker is "eating" the microphone. This may feel awkward, and sometimes sound loud, to the person using the microphone. However, in order for those sitting in various places to hear, it is very much needed. Please give it a try the next time you have something to say.

PASTOR'S PONDERINGS

By Chris Jordan

I love the tradition of the Plainfield Pumpkin People. I have enjoyed seeing the creativity and elaborate decorations. Jack Skellington, Mrs. Doubtfire, Charlie Brown and the Great Pumpkin, and on and on...what a great way to celebrate Fall!

I am sure you have heard the analogy of the jack o' lantern. You know the one where God is a psychotic serial killer that cuts us open, removes our insides, carves a smile on our face and puts a light in our carcass for all to see. This story sounds like the slasher flicks I used to watch as a kid. In this metaphor God ends up looking more like Jason Vorhees than Jesus.

If we were to use the pumpkin people analogy, I would say it should go something like this...God made people, we come in different shapes, sizes and colors just like pumpkins. We are beautiful outside and inside. What is inside of a pumpkin keeps it alive and gives life to new pumpkins, just like what is inside of us keeps us alive and can give life to others. It can seem weird to reach in a pull out the insides of a pumpkin, just like reaching in and pulling out some of our selves can feel uncomfortable. But, if we want to give life to others then we must share our story, the stuff inside of us.

There are more comparisons I can think of between pumpkins and people that don't involve violent homicide. Can you think of any?

BIRTHDAY BANK

With input from Doris Mercier, PCBC Missions Point Person

November Birthday Bank will support Operation Christmas Child. Samaritan's Purse asks that \$9.00 accompany each shoe box filled with goodies. Birthday Bank will be used to cover this cost. PCBC FACILITIES PROJECTS

This section of *News of the Pews* is intended to keep readers aware of the “nuts and bolts” projects going on that keep the PCBC facility a viable and safe place.

PARSONAGE RENOVATIONS – *Input from Mark Overman and Rosie Pelletier*

Val Langdon and Doris Mercier paint doors and trim work...

As this edition of the *News of the Pews* goes to press, the Jordan family will be preparing to move into the parsonage. There are still a number of details that need to be finished before we can say

the project is complete. However, out of respect for the Jordan family, work will no longer be done during evening hours. Instead these details will be finished during the daytime. Therefore, it may still be awhile before we can actually say “job done!”

SOUND SYSTEM – *Input from Rosie Pelletier*

Seth Howard worked with Rosie to mic up a channel for the piano, and to assure the system is playing properly through all of the speakers in both the sanctuary and in Pierce Hall. Joy Hutchins presented a “how to use the traveling microphone” in-service to the congregation (see separate article for more detail). We have received a new microphone to replace the lapel microphone. The new one attaches over the ears and wraps around towards the speaker’s mouth. Because of this attachment, the microphone stays in the same proximity to the speaker’ mouth even when the speaker’s head moves in various directions. Rosie will be using to some his freed-up evening time to focus on better understanding more of the capabilities of the system.
